PROBE 3 STATE DEPARTMENTS TWELVE KILLED IN WEEK-END CRASHES SPECTACULAR RAIDS ON CHICAGO CRIMINALS

SEVEN KILLED IN RAILROAD CRASH AT SIERRA BLANCA

SEVERAL OTHERS SERIOUSLY
INJURED IN VARIOUS PARTS
OF STATE

DALLAS, Jan. 21. (AP)—Accidents involving automobiles took a toll of at least a dozen lives in Texas over the week-end and at least as many were dangerously injured.

Seven members of a Mexican family, including a number of children, met death at Winlay Crossing, west of Sierra Blanca, when their car was struck by a Southern Pacific passenger train yesterday, two were killed in accidents at Dallas, and in Fort Worth, Bert Wilson Myers, injured driver of a car which fatally injured O. H. Redden, a fireman, was charged with murder.

In the Sierra Blanca accident, Alejandro and Esequiel Hernandez, with their wives and three children, of Alejandro Hernandez were killed. Another child, Francisco, age 2, is expected to die, and Simon Hernandez, stepson, had both legs broken. Simon was driving the car. The two families are thought to have come from Big Spring.

In the Fort Worth accident Mr. Redden was uncoupling hose after a fire when he was struck by an automobile which is said to have carried him a block on the bumper. Both of his legs were broken.

W. O. Warner of Waco was fatally injured in Dallas Saturday night when a third automobile crashed into two others which had figured in a minor collision on a viaduct. Charles Brandon of Dallas was recovering today from injuries received in the same accident. Both of Brandon's legs were broken and it was necessary to amputate the right leg below the knee. Eight others received less serious injuries in this wreck.

Early Sunday morning L. L. Case of Dallas was fatally injured when his car turned over upon him on the Dallas-Fort Worth pike.

At Mason, Texas, Lester Nix was instantly killed and Byron Hartline, 18, severely injured when their automobile crashed into the headwall of a culvert while the driver, Fritz Surber was attempting to adjust the headlights.

Wallace Wisniewski, 36, of the Mill Creek community, was killed near Breckham when his automobile turned over.

Dr. E. A. White of the physics department, Baylor college, was in a Belton hospital with severe head injuries when his car turned over. Dr. White was driving to Waco to preach when the accident occurred. Three young women from Austin, who had just had a minor accident and gotten their car back on the road, extricated Dr. White from his car and took him to Belton.

A complaint charging John Ed Purchard of Waco with driving while intoxicated was filed in connection with the collision on the viaduct here.

Two Die Result Burning Hotel In Minneapolis

CHICAGO, Jan. 21.—(UPI)—City health authorities today demanded a grand jury investigation of the "dairymen's strike" that menaces Chicago's milk supply.

There were several reports of violence by armed men, of the dumping of thousands of pounds of milk and of the mixing of kerosene with milk. Dr. Arnold Kegel, Chicago health commissioner, has asked the state attorney's office to institute grand jury action; leaders of the striking milk farmers said they would welcome it.

Chicago's milk supply yesterday was 400,000 quarts under normal, yet distributors said they had been able to supply all demands.

Dr. Kegel asked Mayor Thompson for \$15,000 emergency protection to be used in employing chemists. A department of justice agent was ex-ecuted today to begin an investigation.

John E. Stanczyk was set upon by seven men armed with shotguns, near Lake Forest yesterday. He was pulled from his truck, beaten unconscious and his load of almost 1,000 pounds of milk was dumped into a sewer.

About 30,000 pounds of milk were destroyed yesterday; 2,500 pounds dumped from two trucks at Union Grove, Wis.; 19,000 pounds poured from two trucks between Cary and Crystal Lake, Ill., and 1,000 pounds spoiled with kerosene at Lake Zurich, Ill. One hundred men seized 65,000 pounds of milk from a train

IMPROVING AFTER ILLNESS

A camera study of Marshal Ferdinand Foch, generalissimo of the Allied armies during the World War. The great strategist was stricken a fortnight ago with a severe heart attack which later was complicated by bronchial trouble. Six physicians were in attendance upon him. Monday he was reported greatly improved.

BANDIT CHIEF AND SLAYER OF SEVEN MEN ELECTROCUTED PENNSYLVANIA EARLY MONDAY

ROCKVIEW PRISON, Belle Fontaine, Pa., Jan. 21.—(UPI)—Paul Jaworski, bandit chief, and confessed killer of seven men, today paid with his life in the electric chair for the murder of I. L. Gump, police guard.

Jaworski was strapped in the chair at 7 a. m., and was pronounced dead at 7:06.

Calvin J. James, Bucks county murderer, followed Jaworski to the chair. The first current was sent through his body at 7:10, and he was officially dead at 7:14. James was convicted of having murdered W. C. Dunstan, Doyley, police guard.

Jaworski was a notorious bandit leader and confessed killer of seven men. In his younger days he

was known as Paul Pallas, a church choir singer.

He was leader of the Flathead mob of payroll robbers of the Pittsburgh district. At one time his gang mined a highway and stole \$10,000 from a car front of the road. The mob specialized in payroll robberies, and during one of these Jaworski killed a guard. For that crime he was sentenced to death.

His only concern was a continued magazine story he was reading. The final installment was to appear early in February, and he said "Gut, it's tough not to know how that thing ended."

The publisher of the magazine sent a handwritten copy of the periodical to the jail and Jaworski read the final chapter of the story the day before he was removed to the death house.

GRAND JURY PROBE ASKED INTO CHICAGO MILK STRIKE; SUPPLY 400,000 QUARTS SHY

CHICAGO, Jan. 21.—(UPI)—City health authorities today demanded a grand jury investigation of the "dairymen's strike" that menaces Chicago's milk supply.

There were several reports of violence by armed men, of the dumping of thousands of pounds of milk and of the mixing of kerosene with milk. Dr. Arnold Kegel, Chicago health commissioner, has asked the state attorney's office to institute grand jury action; leaders of the striking milk farmers said they would welcome it.

Chicago's milk supply yesterday was 400,000 quarts under normal, yet distributors said they had been able to supply all demands.

Dr. Kegel asked Mayor Thompson for \$15,000 emergency protection to be used in employing chemists. A department of justice agent was ex-ecuted today to begin an investigation.

John E. Stanczyk was set upon by seven men armed with shotguns, near Lake Forest yesterday. He was pulled from his truck, beaten unconscious and his load of almost 1,000 pounds of milk was dumped into a sewer.

About 30,000 pounds of milk were destroyed yesterday; 2,500 pounds dumped from two trucks at Union Grove, Wis.; 19,000 pounds poured from two trucks between Cary and Crystal Lake, Ill., and 1,000 pounds spoiled with kerosene at Lake Zurich, Ill. One hundred men seized 65,000 pounds of milk from a train

VERY LITTLE CRIME HERE.

With each day bringing reports of murder, hijacking, attacks on women and numerous other forms of crime occurring in nearby cities the people of Corsicana and Navarro county can view the criminal record of this section with considerable satisfaction.

Other than petty thievery and minor bootlegging cases there has been no crime of major importance committed here over a long period of time. The operations of the petty thief are held to a minimum and bootlegging activities in this county are not as great as in many communities of similar population. There will always be a certain amount of petty thievery and a certain amount of bootlegging, the statements of the professional reformers notwithstanding.

This absence of crime is not a just happen so condition. It has been brought about by alert and efficient officers of the law in both the city and county. Through their untiring efforts and never-ceasing drive against the underworld characters this community has become known far and wide as a "hard place to get away with anything" thereby causing this particular city and county to be given a wide berth by the criminal inclined. The hardened law-breaker finds the going unusually rough in Corsicana and Navarro county and one session with the local officers is generally sufficient.

Our official family is exceptionally efficient and deserve much praise for the manner in which they have so satisfactorily kept down crime. The officer of the law has no easy task. The average citizen is more quick to find fault than to offer praise. Less fault-finding and more co-operation by Mr. Average Citizen with the officers and law enforcement efficiency would be increased a hundred per cent.

CARLYLE'S CRITICISM.

Thomas Carlyle wrote scathingly of the way the reading public with avidity seizes upon the latest scandal news about people unknown to the reader personally. Carlyle calls it the evidence of a small mind, and we think he is about right.

Some metropolitan newspapers are the greatest offenders in this line of purveying "news" to their readers, catering to the lower minds of the community by so doing.

Legitimate information about one's neighbors, such as the erection of a new home, the births, the marriages and deaths in our own community are whole some and are outside of the realm of pertinent curiosity, which drew the great Thomas' wrath. These are the main items carried by the country weeklies, along with straight constructive matter like the doings of the chamber of commerce and the other public bodies and officials. They do not descend to the tattling of private scandals, or, at least when they do one soon sees another newspaper for sale and another editor seeking new fields.

Carlyle's criticism does not concern country weeklies. The small minds, completely empty, are more often found in the great cities than in the rural communities.

One man was killed and two others seriously injured when a liquor still exploded in a Louisiana town the other day. Say, we thought there was a law against those things.

CONTRITION AND AT- TRITION.

There is a world of intensely interesting things in the dictionary besides answers to cross-word puzzles and big words nobody ever uses. In fact some people have been so intrigued by the contents of the dictionary that they study it as zealously as the pious read their Bibles.

Just one of the interesting things almost anyone may run across in a book of words is the differentiation in the definitions of the words "contrition" and "attrition."

The definitions as given by Webster are:

Contrition—denotes deep sorrow for sin growing out of love toward God.

Attrition—such perfect sorrow for sin as arises from fear of punishment.

In these two short word meanings the philosopher will read a long story of human emotions, weaknesses and traits, the criminologist will discern one of the problems of society and the lay mind will recognize that in which all civilizations have failed.

Every prisoner before the bar pleads his sorrow for his crimes and not infrequently a skeptical magistrate asks him if he would still be sorry if he had not been caught. Unfortunately it must be admitted that courtroom repentance is more often the result of attrition than contrition.

Courts and social workers refuse to classify as criminals wrongdoers who feel honest contrition. The business of the courts is to distinguish between those who are sorry because of love for God or man and those who are sorry because they got caught.

AID THE PARTY.

The National Democratic Committee has a deficit of \$1,500,000.

A drive to raise this fund was launched Wednesday night when Alfred E. Smith, defeated Democratic candidate for the presidency and former governor of New York, announced he had given his campaign speeches to the national committee and that they would be published in book form. This book of speeches is to be sold for two dollars each and in this manner a goodly sum is expected to be raised which will aid materially in wiping out the debt.

In his address Mr. Smith pointed out the necessity of the Democratic party functioning every day in the year instead of six months of presidential election year. Mr. Smith urged the participation of all Democrats in the financing of the party as it is not a good thing for a great amount of power to rest with a few men.

The Democratic party is still a militant organization. It still has much work to perform and will perform it. There is yet much life in the old party regardless of the view of the Republican press. Many lose sight of the fact the party polled the largest popular vote in its history.

The Democrats will be up and fighting as never before four years from now but as Mr. Smith pointed out in his recent radio address a permanent and active organization to function every day in the year is necessary.

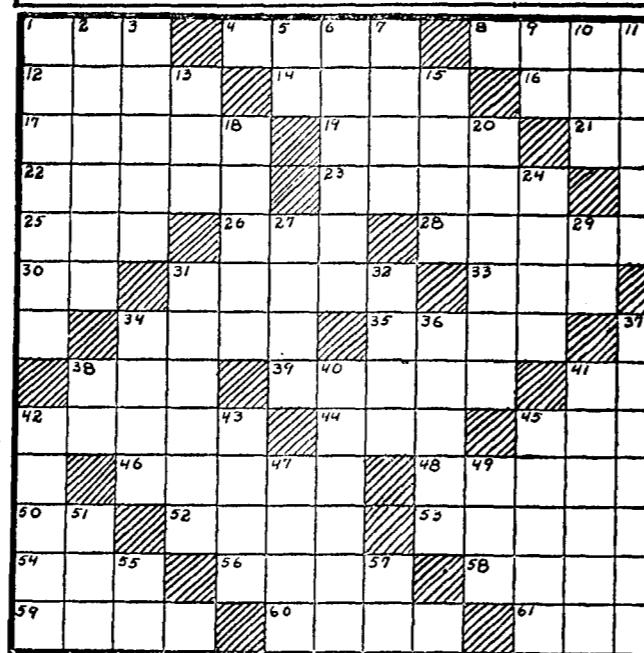

"There is a need at all times for real facts concerning public happenings," Mr. Smith said.

And with the Republicans in power many of the real facts will not be known if the Democratic party is inactive. Which it will not be.

A boy and girl, each aged sixteen years, were found shot to death in their automobile in West Virginia recently. Officers advance the theory of a suicide pact. If this is the case twisted minds or bootleg whiskey, or both, no doubt could be traced as the direct cause of the tragedy. Life for any normal boy or girl of sixteen years is far too sweet to even think of death much less die by their own hands. Might as well look the situation squarely in the face. Contraband liquor and smuggled drugs lay the foundation for the activities of the youthful criminal and the twisted thinking which should be far removed from the minds of any normal boy or girl.

The load factor in the heavier-than-air machine has always been the bugaboo. It cannot exceed twenty-five pounds per horsepower without some reduction of safety and handling qualities. This is why overseas flights are always attended with such danger. Overload of fuel and oil taxes both plane and fliers. The Question Mark has shown that with means for replenishing the tanks a well-made

Today's Cross-Word Puzzle

HORIZONTAL.

A REAL AERIAL CON- QUEST.

Eleven thousand miles and more than six days of steady flight give Captain Ira Eaker and the Question Mark such a long lead in records as to mark an entirely new point in heavier-than-air navigation. The science has marched a long, long way since the NC-4 spanned the Atlantic and Alcock and Brown made their famous flight. It has come infinitely farther since the eventful December 17, 1903, when the Wrights first succeeded in mechanical flight above the dunes of Kitty Hawk.

The Question Mark covered a distance of more than four times the air line distance between New York and San Francisco. It is only 24,896 miles around the earth at the equator, so that had the Question Mark been flying steadily parallel with the equator it would have almost half encircled the globe.

The feat is one that shows perfection of engines, and high adjustment of the human to the mechanical equation.

Whatever its susceptibility to weather or human shortcoming, a machine that stays aloft with such steady operation is not mechanically unreliable. With the mechanical stability that has now been attained, the advancement in other factors promises to be rapid and extensive.

The load factor in the heavier-than-air machine has always been the bugaboo. It cannot exceed twenty-five pounds per horsepower without some reduction of safety and handling qualities. This is why overseas flights are always attended with such danger.

Now is the time to plant trees and shrubbery. Beautify.

Religion has failed when it tolerates intolerance.

SEVENTY STUDENTS JUNIOR HIGH GET DIPLOMAS FRIDAY

SEMI-ANNUAL COMMENCE- MENT EXERCISES FEATURED BY STUDENT ADDRESSES

Seventy students received their diplomas at the close of a unique program at the ninth semi-annual commencement exercises of the Junior high school.

With the consent of the faculty and principal of the school the members of the class had swerved

from the usual custom, and in

place of the usual commencement address, several short talks about the school would be presented by

the board of education, to

award the diplomas.

Mr. McCammon complimented the class, and recalled that in his graduating class there was also a "Mona Anderson." He announced that he would present diplomas to 70 students and one teacher, stating that Miss Sarah Holman would graduate to the high school with the class.

He expressed the appreciation of the board of education for the faithful work which Miss Holman has done as a member of the public school faculty.

List of Graduates.

After the presentation of diplomas, Rev. David Shepperson, pastor of the First Presbyterian church, pronounced the benediction.

Those receiving diplomas were:

Girls—Louise Adams, Mona Anderson, Mattie Beale, Evelyn Campbell, Minnie Fae Capps, Mildred Carroll, Marlene Gray, Katherine Collins, Louise Dealey, Natalie Dreben, Geneva Dunlap, Janie Mae Ellis, Pauline Faquin, Neva Frost, Elizabeth Garrett, Wilma Gartman, Avila Griffin, Ruby Mae Hahn, Irma Hardgrave, Lela Hopkins, Juanita Miller, Frances Montgomery.

Boys—Earle Neely, Lannie Neels, Edna Earle Parker, Elizabeth Roberson, Dorothy Scoggins, Elsie Scoggings, Mary Lee Scroggins, Florene Smith, Maude Taylor, Marlene Turner, Marie Walker, Eunice White, Mildred Wilds, Laverne Young, Margaret Nell McCarver.

Others—Garold Cannon, Duane Cook, Orel Fox, Byron Franklin, Robert Eason, Howard Gammon, Guy Gibson, Tarlton Goebel, Curtis Gray, Woodrow Green, Eldon Griffin, Frank Harwell, Joe Hashop, Vernon Harwell, Lee Jarman, Emmett McAlester, John Jarnigan, Calvin Milburn, Roy Miller.

Elmer Rainwater, Otis Rector, Charles Russell, Irvin Seauile, Ellis Settimieri, Clarence Sikes, Jack Silton, Newton Smith, Hudson Soape, Ernest Watson, Vince Watson.

Supervised Study.

One of the outstanding reasons

for the success of the junior high school movement was declared by Miss Lena Neels, third honor student.

To the fact that new light was dawning in our educational systems, and in the new order childhood was not being sacrificed to maturity; good citizenship has been maintained as a goal, she asserted, and to that end, the students are permitted and urged to take part in the activities of the various clubs in the school that provide an outlet for an artistic yearning which a student might harbor. Athletics including football, basketball, and soccer were enumerated among the student activities.

Pipe and Fittings.

All sizes, black and galvanized.

OIL CITY IRON WORKS.

Would You Know One If You Saw It?

If you ever came face to face with a germ, would you recognize it? Of course, it is not likely that you ever will see a germ, unless you own a tremendously powerful microscope, for you would have to magnify one over a thousand times to make it as big as a pin head. But you should recognize the fact that these tiny germs can get into your blood stream through the smallest cut, and give you typhoid fever, tuberculosis, lockjaw, blood poisoning, and many more dangerous and perhaps fatal diseases. There is one sure safeguard against these dangers—washing every cut, no matter how small, thoroughly with Liquid Borosone, the safe antiseptic. You can get Liquid Borosone at Lee Drug Company.

Principal W. P. McCammon, president

of the Adv. Co., presented

Lee Drug Company.

Two musical numbers were

presented in the program. Im-

mediately after the invocation, the Girls' Glee club sang "Ciribiribin" by A. Pestalozzi; and at the conclusion of the addresses, the boys' choir rendered a special march, "Miss Lena." Miss Mary, music instructor, directed the numbers.

PIONEER RESIDENT CORSICANA PASSED AWAY THURSDAY

William Boltz, aged 33 years, native of Pennsylvania, but resided at his home, 1446 West Fifth Avenue Thursday afternoon at 4:20 o'clock and the funeral services

were held at a midday Friday afternoon at 3:30 o'clock with burial in Oakwood cemetery.

The services were conducted by Rev. P. Martin Baker, pastor of the Third avenue Presbyterian

church. Sutherland Undertaking company had charge of the funeral.

**COMMENCEMENT FOR
MID-YEAR GRADUATES
HELD FIRST TIME**

**CLASS OF TWENTY-TWO RE-
CEIVE DIPLOMAS; WORLD
RELATIONS DISCUSSED**

At the first mid-year commencement exercises in the history of the Corsicana public schools, twenty-two students were graduated from the high school Friday evening at the Armory.

While the high school orchestra under the direction of Miss Joe Jarrell played the processional, Jack McNutt led the graduating class onto the stage. The invocation was pronounced by the Rev. C. E. McStravick, pastor of the United Presbyterian church.

"Home is Waiting," a Croatian folk song, and "Canoeing" by Coerne were sung by the Girl's chorus under the direction of Miss Joe Jarrell, with Miss Georgia Ruth Pollock at the piano.

Principal W. H. Norwood announced that for the first time in the history of the school mid-year commencement exercises were being held, and that special program had been arranged with the honor graduates discussing phases of the relations of America with other nations of the western hemisphere.

"The economic relationship of the Americas" was the subject of the salutatory address by Miss Mae Hester. Taking up first the relations with Canada, the speaker pointed out that relations were on a higher plane with this nation because there was no longer a fear of annexation on the part of either, and although there were still some serious problems to be considered, there was little in sight to affect the substantial intercourse between the nations, with both Americans and Canadians making substantial investments in the other country.

Long Years of Peace.

Not since 1817 have the nations felt the need of heavy armaments along the boundary lines, and thousands of miles have no military protection. Although vitally interested in European politics, Canada does not allow them to effect her dealings with her southern neighbor.

America's relations with the Latin-American nations have existed on a basis of convenience and safety, the southern countries having raw materials to trade for the surplus production of the United States.

The sales of the surplus production enables the American factories to maintain peak production and insures greater profits.

Increased demand is now being felt for the development of larger markets in Central and South America. Loans to these nations are made by American bankers at the sole risk of the investor and the government will not allow the use of force to collect the debts if they are overdue, and the continuance of these loans is an expression of confidence of the highest type, the speaker asserted.

More stable political situations in many of the nations is opening the way for their rapid advancement, and the gradual subsiding of the fear of annexation under the terms of the Monroe doctrine is able to bring about better relations. The success of this nation rests entirely on the relations of America with Canada and with the Latin American countries.

"Some political problems of the Western Hemisphere" was the subject of the valedictory by Lewis M. Elliott. Introducing his subject with a reference to the recently completed visit of the president-elect to the Central and South American nations, the speaker termed the trip an admirable attempt to win the confidence and esteem of the southern nations.

Political Background

The valedictorian then presented a brief summary of the political background which has resulted in the present conditions. Much of the present crisis has grown out of the interpretations of the Monroe Doctrine, or rather the lack of definition of the doctrine. Under the terms of this agreement made in 1823, the United States has twice taken up arms to prevent invasion of old world powers, and today no vestige of their authority remains.

Other policies named by the speaker which demand the interest of the United States in South America are protection and maintenance of the Panama Canal and

**UNITED STATES SUPPLY OF
COTTON JANUARY 1ST SHOWS
DECREASE FROM LAST YEAR**

AUSTIN, Jan. 19.—(Epl.)—Cotton supply in the United States indicated on January 1 totaled 9,495,000 bales, compared to 9,833,000 on January 1, 1928, and an average of 9,384,000 on that date over the past eight years according to Bervard Nichols, assistant in charge of index numbers in the Bureau of Business Research at the University of Texas.

The large disappearance during December did not hold up to the record rate of consumption in the United States but more particularly to the unusually heavy exports, Mr. Nichols said. "Exports were 1,059,000 bales for the month and consumption amounted to 534,000 bales, making a decrease of 1,592,000 bales in the 30-day period—an exceptionally large decrease relative to the present supply.

The indicated supply on January 1 in the United States is 338,000 bales under that on January 1 a year ago. In the past seven years changes in supply on that date have totaled 1,006,000 bales and deflated price changes have been 4.92 points or a change of 29 points for each change of 100,000 bales in the supply. At the same ratio, with a decrease in the supply of 338,000 bales, there should be an increase in the price of 98 deflated points. Based on the supply in the United States alone, New Orleans spots should be about 2014 cents. If the European supply is considered, however, the large decrease in the United States has a slight change was made in the method used by the Bureau of Business Research in calculating the balance. Some of the carry-over figures for past years included linters, and in a few cases the item "cotton on farms and elsewhere" partly estimated as reported by the Census Bureau was not included. As presently used, all figures in the carryover group are those reported by the Census Bureau at the beginning of the cotton year, August 1, and do not include linters.

"Statistics compiled by the Cotton Textile Merchants of New York City for December are less favorable than reports covering the previous four or five months. Production totaled 278,000,000 yards and sales were 225,000,000 yards, of 80 per cent of output.

In the New England mills 100.7 per cent of production shipments were 276,000,000 yards, or 98 per cent of output. Stocks increased 8 per cent or from 389,000,000 yards on December 1 to 392,000,000 yards on January 1. Unfilled orders on January 1 amounted to 469,000,000 yards, a decrease of 9.8 per cent from the month previous. At the present rate of production bookings are equal to less than six weeks' run."

the field of social welfare, the speaker pointed to the work of the American Red Cross which is at the time administering to the needs of a people after the greatest single catastrophe in the history of the western hemisphere. In Porto Rico, the Red Cross had spent as high as \$30,000 per day to relieve the people after the earthquake which wrecked the land recently.

According to the speaker the foreign departments of the Y. M. C. A. with its broadening and socializing influences is also aiding in a better feeling.

Some of the greatest work is being done by the Rockefeller Medical Research Foundation, through whose efforts remedies and cures for such dread plagues as yellow fever, typhus, bubonic, typhoid and malaria—the tropical scourges, have been discovered and made available.

Future goodwill will not depend so much on diplomatic relationships on the popular expression of amity and good will from the people themselves. In the field of religious education and training, both the Protestant and Catholic churches have spent fabulous sums in establishing churches, schools, hospitals, and missions in the spread of northern religious ideals. The differences between the people are in language, temperament and opinion.

Education Having Effect

Among the other measures affecting the relations between the nations were enumerated the increased study of Spanish in the United States and the increased study of English in the southern countries; increased travel, and an increase in the exchanges of teachers and students between the nations; development and spread of new methods of communication including international highways, radio and aviation; the growth and development of the press and the freedom to criticize, and the exchange of international courtesies.

The three outstanding achievements in recent times, named by the speaker, who aided in forming international friendships, was "Goodwill flight" of army aviators, the efforts of Ambassador Dwight L. Morrow at Mexico City, and the flight of Col. Charles A. Lindbergh.

"What we hope to accomplish," the speaker declared, "is the realization that the destiny of America and Latin America is common to both, and that the destiny of the western hemisphere rests on the feeling of goodwill and understanding between the nations of the continent."

**AGED RESIDENT OF
NAVARRO MILLS DIES
FOLLOWING FALL**

NAVARRO MILLS, Jan. 18.—Mrs. Harriet E. Reed, aged 82 years native of North Carolina but resident of Texas for sixty-five years, died at the home of her daughter, Mrs. W. H. Thorn, Saturday, and the funeral services were conducted by Rev. W. T. Allmon Sunday afternoon with interment in Hamilton cemetery, near Corsicana. Mrs. Reed fell several days before her death and had an attack of influenza.

Survivors are four children: Mrs. Frank Holloway, Petersburg; John and Ike Reed, both of Corsicana; Mrs. W. H. Thorn, Navarro Mills; two sisters, Mrs. J. Highnote and Mrs. Caroline Martin, both of Corsicana; one brother, Joe Martin, Sunset and other relatives.

**PIONEER RESIDENT
DAWSON COMMUNITY
WAS BURIED MONDAY**

J. M. Scarberry, aged 71 years, died at Tuckerton Thursday afternoon at 2:30 following a short illness with flu-pneumonia, and the funeral services were held Friday afternoon at 2 o'clock from Sutherland Undertaking Parlors, with interment in Oakwood cemetery. The funeral was conducted by Rev. Jensen, Baptist minister of Mildred Hill. Scarberry had resided at Tuckerton during the past four years and prior to that time had lived in Ardmore, Okla.

Surviving are his wife, one son, Virgil Scarberry, Ada, Okla.; three daughters, Mrs. Cassey Fuege, Tulsa, Okla.; Mrs. A. M. Reese, and Mrs. Elmer Ballard, both of Corsicana; 15 grandchildren, two great-grandchildren, and other relatives.

Six children and a number of other relatives survive.

**Wortham Bulldogs
Are Given Sweaters
After Long Delay**

WORTHAM, Jan. 19.—(Spl.)—The Wortham Bulldogs have received their sweaters after quite a delay. The sweaters are royal blue with large white blue-trimmed W on the front. A white bulldog on the left sleeve and service stripes below the elbow. Fourteen of the members received sweaters this week, seven of the members received three service stripes, one with two, and six with one. Last year a W. Association was formed of lettermen in the Wortham high school and about six boys are to be initiated into this club at an early date. At present all activities, practice work, etc., has been forced to be called off on account of the influenza epidemic.

Future goodwill will not depend so much on diplomatic relationships on the popular expression of amity and good will from the people themselves. In the field of religious education and training, both the Protestant and Catholic churches have spent fabulous sums in establishing churches, schools, hospitals, and missions in the spread of northern religious ideals. The differences between the people are in language, temperament and opinion.

**First Flu Victim
In Wortham, Aged
Woman, Is Buried**

WORTHAM, Jan. 19.—(Spl.)—The first victim of influenza in Wortham died yesterday at 5 p.m. Mrs. Kate Mitchell, aged 83, at the home of her niece, Mrs. J. L. Kelley. Mrs. Kelley is the only surviving relative. Mrs. Mitchell has lived in Wortham over sixty years, moving here from Fort Smith, Ark. She had been an invalid for a number of years and suffered with flu a few days. Funeral services were held at 3 p.m. the Rev. Rogers and Rev. Noe, conducting the services. Burial was in the Wortham Cemetery.

OPPOSITION MAY DEVELOP OUSTING GOV. JOHNSTON

REPUBLICAN SENATOR TO CHAMPION DEMOCRATIC GOVERNOR REPORTS SAY

OKLAHOMA CITY, Jan. 21.—(P)—Indication that there would be opposition to the immediate suspension of Governor Henry S. Johnston when house impeachment charges reach the state senate, was seen today in the announcement of Senator W. T. Clark, republican, of Medford, that he would introduce a resolution asking that the governor not be suspended. The governor is a democrat.

Impeachment Matter Awaits Senate Action

OKLAHOMA CITY, Jan. 21.—(P)—A recommendation for the suspension of Gov. Henry S. Johnston, with five impeachment articles, voted by the Oklahoma house of representatives, awaited action to-day of a senate committee to investigate itself.

The senate was prepared to receive the charges voted by the house of representatives but was confronted with the possibility that an impeachment trial if the senate decides to hold one, might be deferred, pending the completion of an investigation of state departments, undertaken by a house committee.

A statement of the investigating committee that it desired a delay in the trial until it concluded its work "so that the trial, if any, on charges preferred against the governor can be upon all charges or disclosures, resulting from the investigation of the chief executive and his office," was made public yesterday.

Gov. Johnston, meanwhile, has issued a statement which imputed opposition to him of three house leaders to personal malice.

John Head, chairman of the investigating committee, as an attorney for lumber interests, was opposed to him, the governor said, because the government demanded a fix in the timber cut at the state line.

Knight, one of the government's foremost antagonists, was accused of turning against Johnston because the governor refused to discharge Dr. F. M. Adams, superintendent of the state hospital at Vinita; an instructor in the military academy at Claremore, and General Board of Trade and Col. J. C. Stedje, as members of the academy's board of regents, and because the governor rejected Knight's suggestion for altering the course of the United States Highway No. 66.

O. Owens, Tulsa legislator and leader of the Republican bloc, which, in a coalition with insurgent Democrats, held the majority in the house, was motivated in his opposition, the governor said, by desire to procure release from ill-fated judgment in excess of \$5,000 obtained by members of the state supreme court, one of whom subsequently has been supplanted, and from a jail sentence.

Clark's resolution was introduced after the senate convened this afternoon, and was ruled out of order by C. S. Storts, president pro tempore, because the house charges had not yet reached the

NEW THEORY ADVANCED FOR SCIENTIST TO PONDER OVER CONNECTION WITH EVOLUTION

WASHINGTON, Jan. 21.—(P)—Graves' doubt is cast on current theories of evolution by Dr. Austin H. Clark, biologist of the United States national museum, who has a theory of his own to replace them.

As he explains it, Darwin was wrong, and so was Lamarck. So are their followers on almost all vital points, he declares, and in the long quinrel between the so-called fundamentalists and so-called modernists on the origin of mankind in particular and animal life in general he gives comfort to the fundamentalists.

So far as concerns the major groups of animals, he said, "the creationists seem to have the better of the argument." There is no slightest evidence that any of the major groups arose from one another. Each is a special animal complex related more or less closely to all the rest, and appearing, therefore, as a special and distinct creation."

WEST CONFIRMED INTERIOR HEAD BY SENATE MONDAY

VIGOROUS FIGHT HAD BEEN MADE ON NOMINEE BY SENATORS NYE AND NORRIS

WASHINGTON, Jan. 21.—(P)—By a vote of 54 to 27 the senate today confirmed the nomination of Roy O. West of Chicago, to be secretary of interior. The senate acted in executive session and voted not to make public the roll call.

WASHINGTON, Jan. 21.—(P)—Roy O. West of Chicago was confirmed today by the senate as secretary of interior.

Confirmation followed three days of Senate discussion in executive session. Opposition to the nominee was coaxed by republican senators, who complained particularly of Mr. West's former holding of stock in the Samuel Insull Utility interests.

The attack on West was led by Chairman Nye of the lands committee, which recommended his confirmation by a vote of 9 to 4, along with Senator Norris of Nebraska.

Senators Deneen and Glenn, republicans of Illinois, defended the cabinet officer, joined by several democrats.

The vote for West was 54 to 27.

MISSOURI PACIFIC GIVEN PERMISSION PURCHASE BUS LINES

RIO GRANDE VALLEY BUS LINES TO BE OPERATED BY NEW ORGANIZATION

AUSTIN, Jan. 19.—(P)—Applications of the Missouri Pacific transportation company, subsidiary of the M. P. Railway system, to purchase bus lines in the Rio Grande Valley and extending as far up as Corpus Christi, have been approved, Mark Marshall, director of the motor bus division of the railroad commission announced today.

The change in ownership will become effective Monday. It is the first time since the building of good highways and the coming of buses and trucks into competition with railroads that a railroad has gone upon the highways to hold its business.

Lines were authorized to be transferred to the Missouri Pacific Transporting company as follows: E. C. Tusteth, between San Benito and Point Isabel; Blue Border Bus Lines between Corpus Christi and McAllen; George F. Beville, between Edinburg and Pharr; S. A. Nierert, and Glenn Milum, between Brownsville and Point Isabel; E. C. Tusteth, C. A. Nierert, and S. A. Nierert to sell Black Diamond Bus Line and Valley Bus line, both operating between Raymondville and San Benito and Dixie Bus line between Raymondville and San Benito.

LOS ANGELES, Jan. 21.—(P)—The prosecution's version of the alleged "fixing" of a Julian Petroleum fraud case by Earl and Jack Resenberg with former District Attorney Asa Keyes, originally was complete as the trial of Keyes and five others on bribery and conspiracy charges entered its third week today.

Harold L. (Buddy) Davis, chief deputy district attorney under Keyes, who previously had spent three hours on the witness stand for the state, under call to take the stand today. The admission of a letter written by Davis to Keyes on the occasion of the chief deputy's resignation, which concluded, "I do not care to be party to insincere prosecution of the Julian case" terminated a lengthy legal faray Saturday in favor of the state.

Three witnesses have testified that they saw Ben and Dave Getzoff, father and son, who operated the tailoring shop in which the state contends bribes were passed to the Julian case, culminated, except money from Julian case defendants.

One witness testified that he saw Ben and Charles Reimer, alleged Keyes' "watchdog,"

EIGHT NARROWLY ESCAPE DEATH IN SUNDAY SNOWSTORM

SALVATION ARMY MATTER PASSED IN BRITISH COURT

LONDON, Jan. 21.—(P)—Injunction proceedings brought by the Salvation Army from electing a successor to General Booth were adjourned until Friday when they came up in Chancery court today.

Although the front of his automobile was smashed by the landing gear of the ship, Frank Tice, of Baldwin Park, Cal., and his family of six were only bruised by the severe jolt. The aviator, Robert Crooks, an instructor of a local aviation school here, crawled also unharmed from his plane which nosed over into the ditch.

Blinded by a snowstorm, so severe he believed himself unable to reach the home field, Crooks came down over the highway seeking a place to light. He was landing when suddenly the automobile appeared through the driving snow.

The propeller ripped away the radiator, a wing tilted and the plane swung around clearing the trees.

Mrs. Thomas Swearingen is confined at her home with a bad case of influenza.

SENATE LEADERS SHOW CONCERN AS LEGISLATION LAGS

HOUSE KEEPS CLOSE TO SCHEDULE WITH STRICKER RULES IN FORCE

WASHINGTON, Jan. 21.—(P)—At the half-way mark of the session, leaders in congress started off this week showing some concern over the threatening situation, beginning to threaten the program originally intended to be completed before March 4.

Although the fifteen cruiser bill, last of the more important proposals desired by resident Coolidge, remains before the senate as its first order of business, the time it will reach a vote is in doubt because of the hours that may be consumed in discussing other questions that probably will arise.

The house, however, faced the last half of the session with its customary equanimity since the stricter rules of that body have contributed to clear sailing for appropriations bills and other legislation.

The house, however, faced the last half of the session with its customary equanimity since the stricter rules of that body have contributed to clear sailing for appropriations bills and other legislation.

"Records contained in the recent summary of semester hours registered for and passed by students during the 1927-28 long session and the 1928 summer session, just issued by the registrar's office, show that 73 percent of the courses registered for in the man university during the long session were passed, while in the summer session 80 percent were passed.

Students Different

"This offers a comparison between the two-term system as it is used in the long session and the quarter system as is used in the summer session. There are a number of factors to be considered. In the first place, there is a difference in the type of student the students in the summer session are, I think, more fatigued by their year's work. In the long session the students are younger but they are fresher. These two considerations should balance each other. Another factor is that the faculties used in the two sessions are different, but the influence of this is negligible.

"But when we come to a consideration of the differences of the

REORGANIZATION OF SYSTEM EDUCATION IN EVERY TEXAS COLLEGE URGED BY DR. EBY

AUSTIN, Jan. 19.—(Spl.)—Reorganization of the system of education used in practically every college and university in Texas is advocated by Dr. Frederick Eby, summer school director at the University of Texas and professor of the philosophy of education.

"The whole trouble with our educational system is that we try to carry too many disassociated subjects at one time," Dr. Eby said. "The same ultimate end, of completion of degree requirements, would be achieved if University of Texas students could attend other schools and colleges, would take three courses, meeting classes every day, as is now accomplished by meeting five classes three times each week.

Cannot Tax Gas Sold Military Use in Texas

WASHINGTON, Jan. 21.—(P)—The supreme court today held that Texas was prohibited from taxing gasoline bought in the state for use on military reservations.

The Texas tax of one cent a gallon on all gasoline sold in the state was attacked by the Grayburg Oil Company of San Antonio, on the ground the state could not tax the gasoline the company sold to the government at Fort Sam Houston.

BOMBARDMENT PAVES WAY FOR ADVANCE OF GOVERNMENT TROOPS

GUATAMALAN GOVERNMENT FORCES REPORTED DOMINATING REBEL OUTBREAK

GUATEMALA CITY, Guatemala, Jan. 21.—(P)—Official announcement was made today that the cities of Quetzaltenango and Real del Monte, taken over by rebel forces last week, were reoccupied by government troops today without fighting.

Other figures found in the register of the past year's work show that in the College of Arts and Sciences 73,064 courses were passed out of 101,394 registered for during the past long session. This gives a percentage of 72 percent of every hundred registrations. In the School of Business Administration 77 percent of the courses registered for were passed: in the School of Education 51 percent; in the College of Engineering, 77 percent; and in the School of Law, 73 percent.

Summer session records for 1928 show that 83 percent of the courses registered for in the College of Arts and Sciences were passed out of every hundred registrations. In the School of Business Administration 77 percent of the courses registered for were passed: in the School of Education, 89 percent; in the College of Engineering, 81 percent; in the School of Law, 84 percent.

TEN IMPEACHMENT CHARGES REPORTED AGAINST JOHNSTON

IMMEDIATE SUSPENSION FROM OFFICE ASKED ON GROUNDS INTERFERENCE

OKLAHOMA CITY, Jan. 18. (AP)—Ten charges of impeachment against Gov. Henry S. Johnston were reported to the Oklahoma house of representatives today by its investigating committee. Charging the governor was interfering with the progress of the investigation, the committee asked his immediate suspension from office.

The governor was generally charged in the committee report accompanying the charges with violation of the constitution and laws of the state of Oklahoma; guilt or wilful neglect of duty; incompetency; corruption in office, and of offenses involving moral turpitude.

A summarization of the charges, as presented by the committee in its report, follows:

1—Issuing of pardon and restoration of citizenship to R. D. Crosswhite.

2—Diversion and misappropriation of funds paid to J. W. "Buck" Eldridge, special agent for the government.

3—Unlawful issuance of deficiency certificate for the banking department, creating the position of assistant attorney, law clerk, and stenographer for the year 1927-28.

4—Unlawful issuance of deficiency certificate for the banking department, creating the position of assistant attorney, law clerk, and stenographer for the years 1928-29.

5—The unlawful expenditure of money pursuant to an illegal contract with one Kirby Fitzpatrick, employed as a special attorney for the state banking department.

6—Unlawful issuance of deficiency certificate to continue the state issues commission after refusal of the legislature to make an appropriation for the years 1927-28.

7—Unlawful issuance of deficiency certificates to continue the state issues commission after refusal of the legislature to make an appropriation for the year 1928-29.

8—Unwarranted authorization of interference by militia with orderly conduct under claim of right of members of the legislature to assemble.

9—Unlawful and wrongful attempts to interfere with the functioning of committee on investigation of legislature, judicial, executive and other departments of state and intimidation of witnesses and prospective witnesses to be called by said committee.

10—General incompetency.

The committee in presenting its report, charged that the governor "by his executive and official position and through his employes, organization and friends, is resorting to every manner of means to hamper, delay and interfere" with the investigation, with the result that "witnesses are being intimidated and many witnesses made inaccessible."

"A full, impartial, complete and free investigation cannot be obtained unless such sinister influences is prevented," the report continued, and "can only partially be prevented by the suspension of said Henry S. Johnson as governor of the state of Oklahoma."

A motion of Cham Jones, democratic floor leader and a member of the group supporting the administration, to delay action on the committee report, was tabled by a vote of 53 to 45. John C. Head, chairman of the investigating committee, previously had moved the adoption of the report.

Debate reverted to the motion for adoption.

After considerable skirmishing, the house recessed 167 an hour lunch period without acting on the committee report.

Committee Convened

OKLAHOMA CITY, Jan. 18. (AP)—Documents admitted by members of the house investigating committee to be drafts of impeachment charges against Gov. Henry S. Johnston, to be presented to the committee today, are in the possession of Charles Moon of Muskogee, member of the committee.

The investigating committee went into session shortly before 11 a.m. John C. Head of McCurtain county, chairman, said the meeting would be "very executive."

None of the committee members would discuss the nature of the charges. It was said no good authority they were drawn during the night by three members of the committee, and were to be presented to the main body for action to day.

Johnson's Statement

OKLAHOMA CITY, Jan. 18. (AP)—Gov. Henry S. Johnston declared today that if the evidence supporting ten impeachment charges presented to the house of representatives by its investigating committee, were read in the house, that body would not vote on the charges.

Manifestly angry, the governor emerged from a conference with advisors and political leaders to declare the evidence produced before the committee shows the charges to be without foundation.

"The charges," he said, "are utterly false. You know me. I am not guilty of any of the things attributed to me in them."

Smith's Appeal

FOR FUNDS BRINGS EXCELLENT RESULTS

NEW YORK, Jan. 18. (AP)—The radio appeal of Alfred E. Smith for contributions to wipe out the \$150,000 deficit of the democratic party has brought an avalanche of checks and pledges of funds.

Hundreds of letters, accompanied by checks ranging from \$5 to \$100, and telegrams promising checks to follow by mail have been received by Mr. Smith, John J. Raskob, national chairman, and James W. Gerard, treasurer of the national committee. No attempt has been made to total the amount received.

CROP ROTATION AND CLEAN CULTURAL METHODS BEST FOR PREVENTION OF ROOT ROT

COLLEGE STATION, Jan. 18. (AP)—Crop rotation and clean cultural methods offer the most practical and feasible course so far discovered for dealing with the cotton root rot, Dr. J. J. Taubenseh, chief of the division of plant pathology and physiology of the Agricultural experiment station, A. and M. College of Texas, announced following a two-day conference here on the results of research into the nature of this fungus disease and ways and means to control it. The conference was attended by scientists of the A. and M. college and the United States department of agriculture which are cooperating in the fight on root rot.

Experimental data presented at the conference showed great progress in the study of root rot and its tendencies. Discussion brought out that the vital problem is that of destroying the native weed host plants, roots and all, as well as the cotton roots affected so as to prevent carrying over the disease from season to season and infecting new crops. Control in this respect by mechanical means has

been difficult and the testing of chemical means for destroying infected plant, roots and fungus, will be carried on in 1929.

Reports showed recent work has brought out that the acidity of the soil is of great importance in this problem. In a field survey, root rot was found to be destructive only where the soil was neutral or slightly alkaline and very rarely where the soil was slightly acid. Work has been started to see if it will be possible to use this information to soil rotation in controlling the disease. Preliminary results were reported promising for soils which are neutral or only very slightly alkaline, so that the reaction is easily changed to an acid one.

Cotton root rot is prevalent in 179 counties in Texas and exists generally in the southern part of Arizona, reports at the conference.

It has also been reported in Oklahoma, California and the Republic of Mexico. Research has shown that pest weeds in the fields are common carriers and that most of the plants of economic importance, saves the grasses, have been found susceptible to the disease.

FIRST DONATION FOR WAR MEMORIAL RECEIVED BY SUN

BRONZE TABLET SET IN TEXAS BOULDER TO BE DEDICATED MAY 30

Robert Miller has the distinction of being the first to make contribution toward the erection of the memorial bridge Navarro county's war dead. His letter was received by the Daily Sun Thursday with \$100 enclosed.

The memorial is being sponsored by the Corsicana Lions club, and will cost approximately \$700.

CONSTITUTIONAL CONVENTION ASKED JOINT RESOLUTION

HOUSE ENGAGES IN SHARP DEBATE OVER REFERRING OF REVENUE MEASURES

AUSTIN, Jan. 18. (AP)—Party bolters in presidential elections would be barred from seeking office on the ticket of the political group they deserted in a bill laid before the house today by Rep. Mankin of Georgetown.

Candidates would be forced to take an oath that they cast a ballot for the party's national standard bearer, or that if he did not vote for him, was given the opposing political faction.

AUGUSTIN, Jan. 18. (AP)—The biennial demand for a constitutional convention made its reappearance in the senate today with the introduction of a joint resolution by Senator T. J. Hollbrook of Galveston calling for a referendum on the convention proposal.

Senator Hollbrook asked that 31 delegates be elected the first Monday in June, at which time citizens also would vote on the holding of the convention. If the convention is adopted, the delegates would assemble in Austin the first Monday in July and draft a new constitution which would be voted on its general election in 1930.

The senate today adopted a concurrent resolution to pay the expenses of the joint committees on state penitentiaries for an inspection tour of the prison system.

The senate also adopted a concurrent resolution offered by Senator McFarlane to request the secretary of the United States department of agriculture to change the bag limit on ducks from 25 a day, 50 a week to 15 a day, 30 a week.

On the same day, the senate

House Engages in Hot Debate Friday

AUSTIN, Jan. 18. (AP)—Re-referring of half a dozen revenue raising measures from the committee on revenue to the Senate, and making them illegal for the state to pay more for taxes than other wholesale purchasers pay, has created

some opposition.

Other bills designed to clear up the middle which clause in the Texas law making it illegal for

the state to pay more for taxes than other wholesale purchasers pay, has created

some opposition.

Speaker Barron to determine what channels the bills should be routed.

The dispute arose when Rep. Nichols of Port Neches moved that the bills, which included Rep. Holliston's four cent gasoline tax bill which yesterday was given the committee on highways and motor traffic, again be referred to the committee on taxation and revenue.

Speaker Barron warned that turmoil would follow attempts of members to pass bills from one committee to another haphazardly and

Representative Wallace of Teague, countered with the assertion that "if these bills haven't been referred properly, I would like to know what should be given the highways and motor traffic committee."

The committee also voted to re-

port favorably on a bill by Senator W. D. McFarlane of Graham to provide for the manufacture of motor vehicle number plates, seals, road signs and markers at some suitable place in the penitentiary system.

The board of control would be authorized to use \$75,000 of the state highway fund to install machinery and equipment for that purpose.

Amend Textbook Law.

AUSTIN, Jan. 18. (AP)—Investigation of the price of textbooks and the desirability of amending the free textbook law was approved in the senate here today on a viva voce vote. The proposal, put forward by Senator A. J. Wirtz of Se-

attle Creek, Texas, was referred to the Senate.

All students who were seven years of age before Sept. 1, 1928, will be eligible to attend the new classes without paying tuition, Mr. Wirtz stated, while others who enroll will be charged a small tuition.

NATURE THOUGHT OF EVERYTHING

Nature thought of everything when the human body was made. When the body is about to become ill, nature planned danger signals to warn us. Thus, if our children grind their teeth when they sleep, or lack appetite, or suffer from abdominal pains, or itch about the nose and fingers, we should know that they may have contracted worms. Then, if we are wise, we buy a bottle of White's Cream Vermifuge and safely and surely expel the worms. Thus we avoid the danger of very serious trouble. White's Cream Vermifuge costs only 35¢ a bottle, and can be bought from Lee Drug Company.

ALL SERVICES OF SALVATION ARMY WELL ATTENDED

ORGANIZATION YOUNG PEOPLE'S MOVEMENTS WILL BE TAKEN UP TONIGHT

All the services conducted at the Salvation Army Citadel yesterday were of a very interesting nature. The attendance at the Sunday school showed a slight increase over the previous Sunday; the interest in the Young People's Legion is increasing. The topic "The Value of Character" was very interesting and was thoroughly discussed by most all present.

The subject of the evening message was "Who Cares," taken from the Psalms of David. Captain Thomas built his message around three major points, "What is it which creates a care for the souls of others?" "On whom does this duty rest?" and "The great evil of neglecting this duty." One conversion was registered and several raised their hands for prayer.

A special young people's assembly will be held tonight for those interested in organizing the "Life Saving Scouts," the "Life Saving Guards," the "Sunbeams," and the "Chums," four organizations the Salvation Army is carrying on throughout the world.

Ensign R. P. Fenton of Dallas, the divisional organizer, will be in Corsicana Thursday to go thoroughly into the many great features these organizations promote.

CONFERENCE HELD ON HIGHWAY FROM ATHENS-CORSICANA

Saturday, a conference was held here between state and federal highway engineers on state highway No. 31 east and west, particularly with reference to that section of the highway from Athens to Corsicana and an inspection of the proposed route was made. It was stated Monday that the state highway department will approve the routing set up by the engineers within the near future.

Among those who were at the conference and who went on the inspection of the proposed routings were E. C. Woodward, Waco divisional state highway engineer; J. C. Carpenter and Mr. Taylor, both of Fort Worth; Federal highway engineers; Mr. Treadway, Athens resident, state highway engineer; and W. Aker, Corsicana resident, state highway engineer.

AD SICK

W. W. McClelland, county engineer, who underwent an operation in Dallas, Friday, was reported resting well Monday.

Civil matters were being considered in the county court Monday morning.

Sheriff's Office
Saturday night, Sheriff Rufus Pevehouse, Deputy Sheriff V. M. Murray and City Officer Seaton and Griffin raided a house in the northern portion of Corsicana and arrested a woman and her husband for the alleged violation of the prohibition laws. Entrance was effected by breaking the door when admittance was refused and according to the officers, plenty of action was seen. Six one-half gallon jars of liquor were broken by the woman. The jars were sitting on a table but the officers managed to secure enough for evidence by placing a jar under the table and catching the whiskey as it ran from the table.

Mr. and Mrs. Joe B. Cobb were arrested and made bond in the sum of \$1,000 each Sunday, to await the trial of the grand jury.

Sheriff Pevehouse returned Saturday from Waco with Preston Williams, Oliver Andrews and E. L. Franks, who were arrested in Waco, Friday night and indicted Saturday morning by the Navarro county grand jury for car theft in connection with the alleged stealing of the car belonging to H. B. Hebert, and lodged the trio in the Navarro county jail. Andrews and Franks had been released on bonds in the sum of \$1,000 each Monday morning but Preston Williams was still in the county jail.

Deputy Sheriff McMurray and Sheriff Pevehouse arrested a man in the oil field for disturbance of the peace and drunkenness Sunday night and placed him in jail, and Saturday night, the two officers with Constable C. V. McCord of Frost arrested one man for drunkenness and also arrested Edward O'Neil on a complaint for the alleged violation of the prohibition laws. O'Neil was released on bond in the sum of \$1,000, to await the action of the grand jury which convenes next Monday.

Deputy Sheriff McMurray arrested a man Sunday at Eureka for alleged drunkenness.

ROOSEVELT HONORS COLORADO PAPERS ON WHITEY WALKER

OKLAHOMA AND OTHERS ALSO SOUGHT MEMBER OF NOTORIOUS GANG

ALBANY, N. Y., Jan. 21.—(P)—

The extradition of the State of Colorado for Whitey Walker, under arrest at Buffalo, and wanted for murder in connection with a bank holdup, was granted today by Governor Roosevelt.

A similar requisition was made by Oklahoma, but the governor honored the Colorado request because of the more serious charge against Walker in that state, and because the alleged crime in Colorado occurred at an earlier date than a holdup charged against him in Oklahoma.

Sheriff Pevehouse returned Saturday from Waco with Preston Williams, Oliver Andrews and E. L. Franks, who were arrested in Waco, Friday night and indicted Saturday morning by the Navarro county grand jury for car theft in connection with the alleged stealing of the car belonging to H. B. Hebert, and lodged the trio in the Navarro county jail. Andrews and Franks had been released on bonds in the sum of \$1,000 each Monday morning but Preston Williams was still in the county jail.
